Mr. Camp,

The following is the response received from SLD on the equipment and reoccurring will be funded and under what categories. Please any questions regarding this, call 1-800-697-2804 and if I am not there call my cell 1-254-722-6787 anytime....I hope this helps! Dean

From: GUY LOPRESTI <GLOPRES@neca.org>
To: d3tech@usa.net
Subject: Personal Earth Station 6000 eligibility -Reply

Dear sir, The SLD's ruling on wireless networks in relation to the E-Rate program states that wireless LAN's and WAN's are eligible for discount only if used to access the Internet and that access is the most cost effective means of accessing the Internet. The Hughes product, PES 6000 VSAT System, if used to access the Internet, is eligible under the program. That includes the DIU, The TPC data port card, the RF Head and the VSAT antenna. The NT Server software and the Proxy software is eligible as well. The installation of the system, the server software and the wiring is also eligible for discount. All three would be considered Internal Connections. Please understand that by stating that the above services are eligible under the program, the SLD is in no way endorsing the Hughes product or D3 Technologies ability to market the product.

Internet access is eligible under the E-Rate program.

Guy LoPresti
Associate Manager- Services
USAC/SLD

This inquiry is to make sure that the following equipment and service is eligible under the E-Rate funding

Internal Connection-SLD Heading

=====

(1) Hughes Personal Earth Station 6000 VSAT System
\$20,7000.00
Includes: PES 6000 Series DIU
TPC Data-port Card with Elan PLC

Re: FC Form 471 Application Number : 139066
Funding Year: 07/01/1999 – 06/30/2000
Billed Entity Number: 21973

We received the Confirmation Letter for the above Application Number. We are appealing the School and Libraries Division's decision to deny funding for the following FRNs:

0000253435, 0000253437, 0000253439, 0000253440, 0000253446, 0000253449,
0000253455, 0000253457, 0000253458, 0000253460, 0000253462, 0000253463,
0000253465, 0000253467, 0000253468, 0000253471, 0000253472, 0000253475,
0000253477, 0000253480, 0000253483, 0000253486, 0000253489, 0000253490,
0000253491, 0000253492, 0000253493, 0000253494, 0000253496, 0000253497,
0000253499, 0000253501, 0000253505, 0000253506, 0000253514, 0000253517,
0000253518, 0000253524, 0000253525, 0000253527, 0000253528, 0000297853

The Pre-discount cost for each of these FRNs is \$34,623.

Our appeal is based upon two factors:

1) The SLD's explanation for the denial is "30% or more of this FRN includes a request for Satellite Equipment and Service-which is an ineligible product based on program rules." We have reviewed our contract and itemized cost analysis with S & K electronics, (See Attachment A & B) and have concluded that at most only the satellite antennae (\$750) and possibly the mount (\$625) do not meet program requirements. The rest of the listed items all appear to be allowable items.

- 2) The SLD never asked either the Bureau of Indian Affairs or S&K for the information needed to make its decision. We question how the SLD could make their decision without a more thorough review of our application. We expect that the SLD's review of the attached documents will provide a more favorable decision.

We would add, that our decision to use satellite systems to connect our schools is based on the fact that there are no other resources available to connect these 42 schools to the Internet. The schools are located in the most isolated areas of the United States, where telecommunications services of any kind are not available nor are they likely to become available within the next 5 to 10 years. The lack of availability has most recently been documented in the U.S. Department of Commerce's report "Falling Through the Net."

While we recognize that the SLD cannot waive FCC rules, we request that you re-review our application and contract documents to determine the appropriateness of our request. If you have questions, please call Peter Camp, at 202-208-4411

Sincerely,

Director, Office of Indian Education Programs

BIA Satellite Communications Cost Projections

12/09/99

Table II shows the costs by month, based on 10 installations per month. The amount billable to both SLC and BIA has been calculated by the spreadsheet using the discount rate for the school. The discount rates were received from Ultra Technologies and are shown on the spreadsheet for each school. The Monthly LAN Support is also derived from the number. The figures in Table II represent the costs for installation of the schools to be configured during that month and the monthly service charges. The monthly service charges will, in most cases, be less than shown for the first month, as the billing will not start until the school has been configured and is fully operational.

Table III shows the cumulative costs for the current and all preceding months for the program for the first year.

Table II - Prices from Proposal dated Mar 25, 1999.

	MONTHLY	
	SLC	BIA
July	256,944.78	30,549.42

May	1,533,089.22	289,074.54	1,822,163.76
June	1,592,325.59	305,353.99	1,897,679.58

A copy of the underlying spreadsheet that was used to calculate the above information has been e-mailed to Jim Roubidoux. The document has also been placed on our terminal server and can be accessed via the Internet if on-line discussion is desired.

An extract from the spreadsheet, which shows the calculations for Black Mesa Community School, is shown below. The discount rate was 90% and the number of computers was 20.

School Name	Rate	Computers		
			One Time Costs	
			Purchase Hardware	SLC 10,350.00 BIA 1,150.00
			Install Space Segment	7,650.00 850.00
			Install LAN Segment	6,300.00 700.00
			Sub Total - One Time Costs	24,300.00 2,700.00
			Monthly Costs	
			PES Lease	239.46 26.61
			Monthly Space Time	426.29 47.37
			Monthly Space Help Desk	200.00
			Monthly Space Maintenance	18.00 2.00
			Monthly LAN Support Station	216.00 24.00
			Monthly Prog Management Supt	319.77 35.53
			Sub Total - Monthly Costs	1,219.52 335.50
Black Mesa Community School	0.90	20.00		

BIA Satellite Communications Cost Projections

12/09/99

Access Native America - BIA Satellite Cost Projection - First Year

The objective of this memorandum is to provide summary information to BIA and FedSim on what the anticipated costs will be per month during the installation and first year service period.

A spreadsheet has been prepared that provides the details for cost and schedule for installation of the satellite systems at each of the 41 schools identified and also the costs for the service and help desk support for those schools through June of 2000.

Our draft installation schedule shows approximately 10 schools per month being installed and configured, beginning on or about July 1, 1999. Satellite time, maintenance and help desk service will commence at the completion of each installation for each school.

The spreadsheet calculates the costs based on the following factors:

- The prices set forth in our proposal spreadsheet dated March 25, 1999
- These prices are shown in Table 1 below along with the primary source of funds. The prices have been divided into the categories of "One Time Costs" and "Monthly Costs".
- The SLC Discount Rate for each school is a variable for each school and is shown on the spreadsheet.
- The number of computers anticipated to be at each school is a variable for each school because it will impact the cost of the communications help desk support for the e-mail and web browser software.

Table 1 - Prices From Proposal dated Mar 25, 1999.

<u>One Time Costs</u>		
Purchase Hardware	11,500.00	SLC
Install Space Segment	8,500.00	SLC
Install LAN Segment	7,000.00	SLC
One Time Costs	27,000.00	
<u>Monthly Costs</u>		
Monthly PES Lease	266.07	SLC
Monthly Space Time	473.65	SLC
Monthly Space Help Desk	200.00	BIA
Monthly Space Maintenance	20.00	SLC
Monthly LAN Support Station	240.00	SLC
Monthly Prog Management Supt	355.30	SLC
Monthly Costs	1,555.02	

Actual will be based on number of computers at each school.
